

- 1
- (b) ~~controlling~~ directly transmitting telemetry to said irrigation components to  
control the operation of the irrigation components; and
- (c) displaying said status of the irrigation components.

4. (Currently Amended)

5 The method whereby a person may remotely determine the status of mechanized  
irrigation components and ancillary equipment and for controlling the operation thereof,  
comprising the steps of:

providing a single handheld wireless RUI;

utilizing said <sup>Single handheld wireless</sup> RUI to read the status of the irrigation components and ancillary  
10 equipment; and

<sup>Single handheld wireless</sup>  
utilizing said RUI to directly transmit telemetry to said irrigation components and  
ancillary equipment to control the irrigation components and ancillary equipment.
